

A romantic wedding scene set in a rustic barn. A bride in a white gown and a groom in a dark suit are dancing in the center. The barn's interior is characterized by a high, vaulted ceiling of dark wooden beams and rafters. A large, ornate chandelier hangs from the center of the ceiling. The floor is made of light-colored wood. In the background, several tables are set up for a reception, with chairs and floral centerpieces. The lighting is warm and focused on the couple, creating a soft, intimate atmosphere.

WHAT THE INDUSTRY TAUGHT US

First things first:

CONGRATULATIONS – YOU ARE FREAKING ENGAGED!

Whether you book with us or not, we hope you have the time of your life during your wedding.

Our number one tip is: You'll spend your special day accompanied by your photography and videography teams – make sure you feel comfortable around them.

In order to make a good decision, you'll go through dozens of portfolios, which will all be great. Pick what resonates most with you. In other words, if classic is not you, don't go classic just because it looks good on somebody else's album. If classic is you, go for it! We support the idea that your wedding should be just as individual as you are.

HOW DO WE DO YOUR "I DO"?

Making a wedding video and album shouldn't have a recipe. While there is a plan and a "script" to follow, we believe there is no need to create a moment that is already happening. Instead, we focus on the fact that you two are in LOVE, it is your day, and we are there to capture IT. Real emotions – that's what matters. That being said, if there is a shot (or many) you dream of, we are happy to pose you for it.

How do we "get it"?

Our bookings are limited to 24 weddings per year so that we don't lose touch by outsourcing. You book us, you get us.

We stay creative because it cannot be just another wedding – it IS special. Our goal is to blend in, get the vibe, and showcase it from an inside-out perspective. We will dance with you and your guests instead of standing awkwardly aside hoping they don't mind us.

Some of our best video footage happens after shoes and ties come off and the drinks are low. Hence, for video packages, we charge for the event as a whole rather than hourly.

For destination weddings, costs of travel, food and lodging are discussed on a case to case basis. We can cover the wedding with 2 or 3 professionals, the couple decides.

WEDDING PLANNING 101 - PHOTO

OMG, YOU'RE GETTING MARRIED!

So, what now? How do you make the wedding that you've dreamed of come true? We know there is a lot to do – venue, flowers, guests, DJ, cake, dress, photographer, videographer and the list goes on. Here is how we make the last 2 go smooth for you:

BEFORE THE WEDDING

If you have a pre-wedding photo session, that's what we do first. You'll then have beautiful pictures for save-the-dates, invitations, website, etc. Ideally, this session happens at least 6 months prior to your wedding day. About 45 days prior to your wedding we should have received your Wedding Questionnaire, which is our guide for the big day – be as precise as you can with locations and times. 30 days before your wedding, with the questionnaire in hand, we will meet in person for the Creative Consultation. Together we will go through all of the details, clarify any questions, and make sure everything is set.

ON THE BIG DAY

To make sure we don't miss a shot, we like to arrange specific photo segments. It is not mandatory, but a good way to match our workflow to your expectations. It also helps you with the overall planning.

The following page shows how much time each segment requires.

WEDDING PLANNING 101 - PHOTO

Getting ready – 90min
Romantic session – 45min
Bridal party – 45min
Family pictures – 45min
Ceremony – 30 to 90min
(dependant on ceremony style)
Reception details – 30min
Reception – 3h
Night shot – 15min

AFTER THE WEDDING

Image delivery: it takes 15 to 45 days to edit your photos and upload them to your online gallery and personalised USB. You'll receive a link and a password to access, download and share your photos with friends and family. If you have an album in your package, once the photos are in your online gallery and USB, the design process of the album can begin. You will choose up to 100 pictures and send them to us. From there, it takes about 15 days to craft the first version of your album. We will then schedule an album design consultation to review everything. This can take place face-to-face or through a video call. By the end of the album design consultation, we will have your album ready to print. Soon after we will let you know when it will arrive.

Regardless of whom you select as your wedding photographer, we hope this info has helped with the planning process.

WEDDING PLANNING 101 - VIDEO

WHAT TO EXPECT

Though the video is a more complex project to put together, the video-shooting is easier on your schedule as no specific segments are required. We move around to capture all the fun, jokes, and kisses as they naturally happen during the photo segments and elsewhere. We try to anticipate the moments and interact with guests in such a way that the camera blends in and everyone forgets it is even there (not us, of course!). This gives your film a beautiful inside-out perspective.

AUDIO

Audio is key! Everyone has something beautiful to say to you on your wedding day, we want to show that! We use dialogues, speeches, vows, jokes, and ambient sounds to create a film that takes you right back to those moments. Our films are not only images of you with background music (unless that is your preference).

EDITING

Editing is a big deal and we master it! Because we know editing is powerful, we use culling, audio, dialogues, soundtrack, dance moves and let it all come into play on our films. Do not skip your Video Creative Consultation – it is uber important because we believe communication will determine how much you'll love your film. If we understand what you are looking for, we will deliver it. So, if a music video is more your vibe, let us know and we will make sure you get exactly that. Don't worry, we will show you a few options to help you decide.

AFTER THE WEDDING

If your package includes a Teaser film, you will receive your 1 minute teaser 10 days after the wedding day. Other than Teaser films, it takes us between 90 to 120 days to edit the films. Once the videos are all edited, we will send you a link to download, and your USB with the video files.
